

# Habiba Monem

**B.Sc. in Information Systems | Software Developer | UI/UX Designer**

Doha, Qatar | +974 7790 9752 | habibsosama161@gmail.com | https://habiba161.github.io/Habiba-Portfolio/

## Professional Summary

Information Systems graduate with hands-on experience in web and mobile application development, UI/UX design, backend integration, and database management. Led the development of the CampusPark+ smart parking capstone project, where I designed and developed both the mobile application and the administrative dashboard. Completed a software development work placement at Al Kass Sports Channels, contributing to the development of a football tournament management web application. Skilled in JavaScript, Python, React Native, SQL, REST APIs, Figma, and modern web technologies. Seeking a full-time Software Developer, UI/UX, IT, or Systems Analyst position.

## Education

B.Sc. in Information Systems – University of Doha for Science and Technology (UDST)
Doha, Qatar
Graduated: Spring 2026

## Professional Experience

**software Development Trainee (University Work Placement)**

Al Kass Sports Channels
Doha, Qatar
26 April 2026 – 30 June 2026

- Contributed to the development of a football tournament management web application.
- Developed and enhanced features for team, player, match, lineup, and tournament management.
- Implemented interactive match events, including goals, cards, and substitutions.
- Improved the lineup management system with drag-and-drop functionality and dynamic formation updates.
- Enhanced the user interface using HTML, CSS, and JavaScript to improve usability and responsiveness.
- Integrated frontend components with backend APIs and PostgreSQL database.

- Performed application testing, debugging, and feature enhancements as part of the development team.

## Academic Projects

**CampusPark+ – Smart Parking System (Capstone Project)**

**Project Leader** | Sep 2025 – Apr 2026

- Led the system design and development of the CampusPark+ smart parking project.
- Collaborated with industry partners including Red Hat and Informatica Qatar.
- Contributed to system architecture design and workflow modeling.
- Designed UI/UX prototypes, wireframes, and user flows using Figma for both the mobile application and admin dashboard.
- Designed and developed the React Native mobile application.
- Designed and developed the administrative dashboard with backend integration.
- Integrated REST APIs and databases to manage parking reservations and user data.

**Additional University Projects**

- Developed web applications and mobile apps as part of university coursework.
- Implemented backend features and database integration for team projects.
- Participated in system deployment and integration tasks.
- Worked collaboratively in teams using GitHub for project management.

## Technical Skills

- Programming: Java, Python, JavaScript
- Web & Mobile Development: HTML, CSS, React Native, Node.js, Express.js, Expo
- Databases & Backend: SQL, MongoDB, Firebase, Supabase, Supabase Auth, REST APIs
- Tools & Technologies: Git, GitHub, Draw.io, API Integration
- UI/UX Design: Figma, Wireframing, Prototyping, User Flows, Responsive UI Design
- Systems & Platforms: Linux, Apache Web Server, System Architecture Design

## Leadership & Activities

- Information Systems Lead – CampusPark+ Capstone Project
- Coordinating system design tasks and documentation across a multidisciplinary team including AI, cybersecurity, and DevOps students.

## Certifications

- User Experience Design Fundamentals – IBM SkillsBuild (Nov 2026)
- Introduction to Flutter Course (Nov 2026)
- Introduction to Figma (Nov 2026)
